

Question:

Wondering if any states can share best practices, sites or any help with using electronic voting. In light of COVID-19 and trying to not meet in large groups, we will still need to be holding our elections and we have never done the electronic voting! Any and all information is greatly appreciated!!

Answers:

We use survey monkey

Using Google Forms has worked for us in the past. It can be done anonymously.

We found that we had to consult an attorney because there are legal ramifications to doing on-line voting.
