

Medicaid Billing

Question:

The New York State Speech-Language-Hearing Association has a question about how other states handle Medicaid billing by audiologists who do not hold the ASHA CCC-A, but are licensed as audiologists in the state; specifically they would like to know if there are Federal regulations involved in this. Any information would be appreciated.

Answers:

I work in Ohio. There are no federal regulations involved in Medicaid billing without your ASHA CCC-A. The only Ohio regulation is that you are licensed in your state.

Margaret Kettler

I would encourage them to contact their state's STAR, Amy Bamrick, as well as Laurie Alban-Havens at ASHA who is the Director of Private Health Plans and State Advocacy. I am also chair of ASHA's Medicaid Committee if they need any assistance that I can provide.
